OBJECTIVE

I am a **MERN** Stack Developer, but my expertise lies in **Front-end** Development. I specialize in React.js, Next.js, Tailwind CSS, and Firebase, focusing on creating modern, responsive, and visually appealing web applications. familiar with backend technologies (like Node.js, Express.js, and MongoDB) and React Native for mobile Applications.

EXPERIENCE

Frontend Developer Intern | FuzionDev

March – April 2025

Worked on real-time, production-level projects (like real Estate app) etc. Built and maintained responsive UI components using Next.js and Tailwind CSS, improving performance and user experience

AI Hackathon | Lablab.ai

April-2025

Worked as a Frontend Developer in an AI hackathon, building a responsive & took lead in preparing and delivering the final presentation, clearly showcasing the product's features and impact to judges.

EDUCATION

Bachelor of Science in Computer Science | GC University Faisalabad

2022 – 2026

I'm currently in my 6th semester with a CGPA of **3.51/4.00**. My coursework includes Web Development, Data Structures & Algorithms, and Software Engineering, and I actively apply my learning through real-world projects.

Web & Mobile Application Development Course | SMIT Faisalabad

2024 – 2025

At **SMIT**, I'm learning **MERN stack development**, focusing on building full-stack web applications with MongoDB, Express.js, React.js, and Node.js.
